

## **Another Car Off The Road**

adapted lyrics by 3DM, original song by Pink Floyd

We don't need no parking spaces  
We don't need no concrete floors  
No dirty air inside our classrooms  
Parents leave those kids alone  
Hey! Parents, leave us kids alone  
All in all, it's just another car off the road  
All in all, there's just way too many cars on the road

We don't need no parking spaces  
We don't need no concrete floors  
No more traffic in the morning  
Parents leave those kids alone  
Hey! Politicians, don't let us alone  
All in all, there should be another car off the road  
All in all, there's just way too many cars on the road
