

Digi Rap

(Verse 1)

Yo, I'm chillin' with ChatGPT, I got Canva on the screen,
PowerPoint flowin', it's the presentation dream.
Learning every day, homework's on my mind,
Google, translate, inform, I'm one of a kind.
Daily grind, listen up, it's time to remember,
New things to explore, keeping knowledge forever.

(Chorus)

Homework fun, that's how I roll,
Translator on deck, I'm on a knowledge stroll.
Calculator, GeoGebra, break it down,
Kahoot quiz time, I'm the king with the crown.

(Verse 2)

Watchin' videos to study, that's the plan,
Take notes, Wikipedia, I'm the man.
Making documentaries with ORF, so fly,
Grammar check, I'm perfect, no need to ask why.
Onenote got my back, organizing text,
Excel spreadsheets—yo, I'm always next.

(Chorus)

Homework fun, that's how I roll,
Translator on deck, I'm on a knowledge stroll.
Calculator, GeoGebra, break it down,
Kahoot quiz time, I'm the king with the crown.

(Bridge)

Deepseek AI, makin' me wise,
Reading, learnin', I'm reachin' the skies.
Open AI for vocab, I'm taking the lead,
Play "Make It Meme" to spark my creativity, indeed.
Spotify blasting, the vibe's so crazy,
Presenting like a pro, you can't faze me.

(Verse 3)

Computers, phones, they're the tools of the trade,
Exciting moments, everything's on display.
Math homework, I'm summing it up right,
Summarize, analyze, and I'm outta sight.
Programming's my jam, making tech come alive,
Cameras rolling, I'm here to thrive.

(Chorus)

Homework fun, that's how I roll,
Translator on deck, I'm on a knowledge stroll.
Calculator, GeoGebra, break it down,
Kahoot quiz time, I'm the king with the crown.

(Outro)

I'm ready to watch TV, February 19 is the date,
Fanny Stapf, it's gonna be great.
From start to finish, I'm on top of the game,
I love it all—learning's the name!
